PROJECT OF THE MONTH | THE CHEGG OFFICE DESIGNED AND EXECUTED BY CHERRY HILL INTERIORS

Chegg® is an American online textbook rental company that specializes in online textbook rentals, homework help, online tutoring, scholarships and internship matching. It is meant to help students in high school and college. Also having branches in India, one of their offices has been Designed and Executed by the team of Professional Architect and Designers from Cherry Hill Interiors Pvt. Ltd.

The office starts with a rustic feel of the Reception, finished with corroded copper, wood, metal mesh, and concrete. The Interview lounge is connected to the reception with a waiting area for the candidates.

Reception

Staircase with workstations

The overall theme has a neutral base with orange accents. The workstation starts with the Stair case with step seating for employees to sit in a causal atmosphere, interact & unwind.

Height-adjustable workstations deliver a complete range of ergonomic postural benefits by allowing employees to sit or stand at their whim without disturbing others

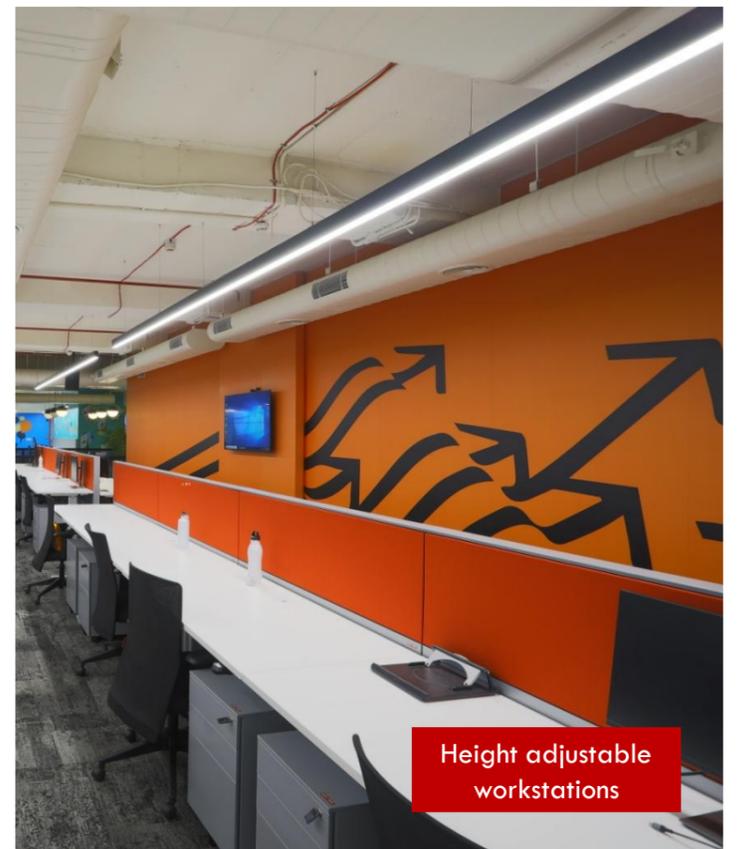

Conference Room

The Conference Room consists of mostly white keeping orange as the only bright color giving it subtle but still a classy feel. The lights above the table are customized stretched fabric lights completing the look of the room.

The ambience is enlivened by the bright accents on the glass partitions, ceiling, etc. The wooden flooring has shades of burnt orange complementing the theme and inducing warmth.

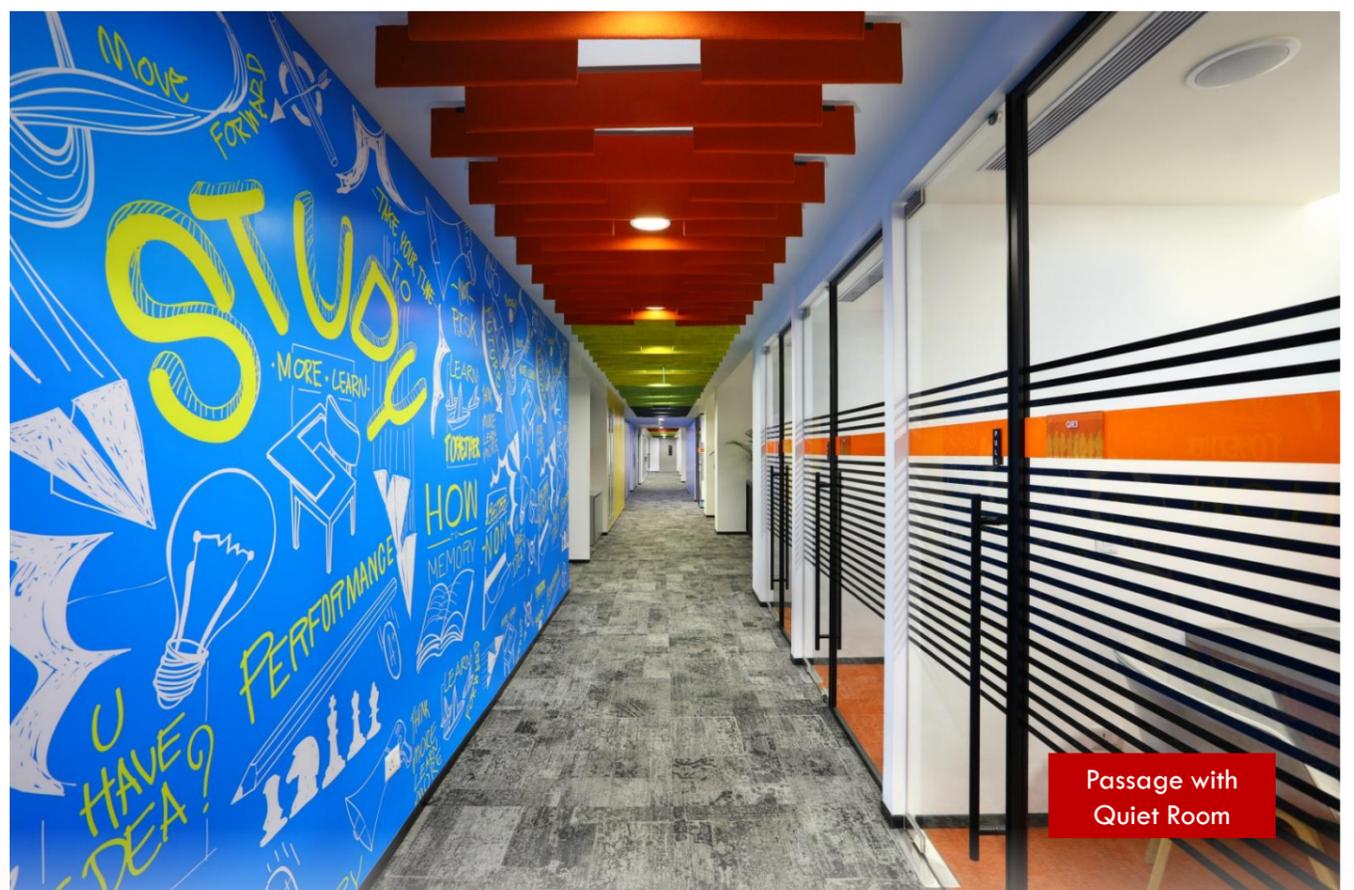

Height adjustable workstations

The café is one of the livelier spaces in the office with the pantry/serving counter block in green, as the focus in the café space, finished in corrugated sheet to give the notion of a shipping container placed in the cafeteria, adding to the rustic ambience.

Overall, the feel of the office is young and trendy keeping the brand and culture of the company alive.

Passage with Quiet Room

SPECIAL FEATURE | THE IMPORTANCE OF ENVIRONMENT, HEALTH, AND SAFETY (EHS)

Environmental health and safety is a Discipline & Important Compliance to ensure that the work undertaken by the company does not caused undue environmental damage to the employee's well-being. This framework requires organizations to manage their activities in order to anticipate and prevent circumstances that might result in occupational injury, ill health, or adverse environmental impact.

The EHS policy should state intent to:

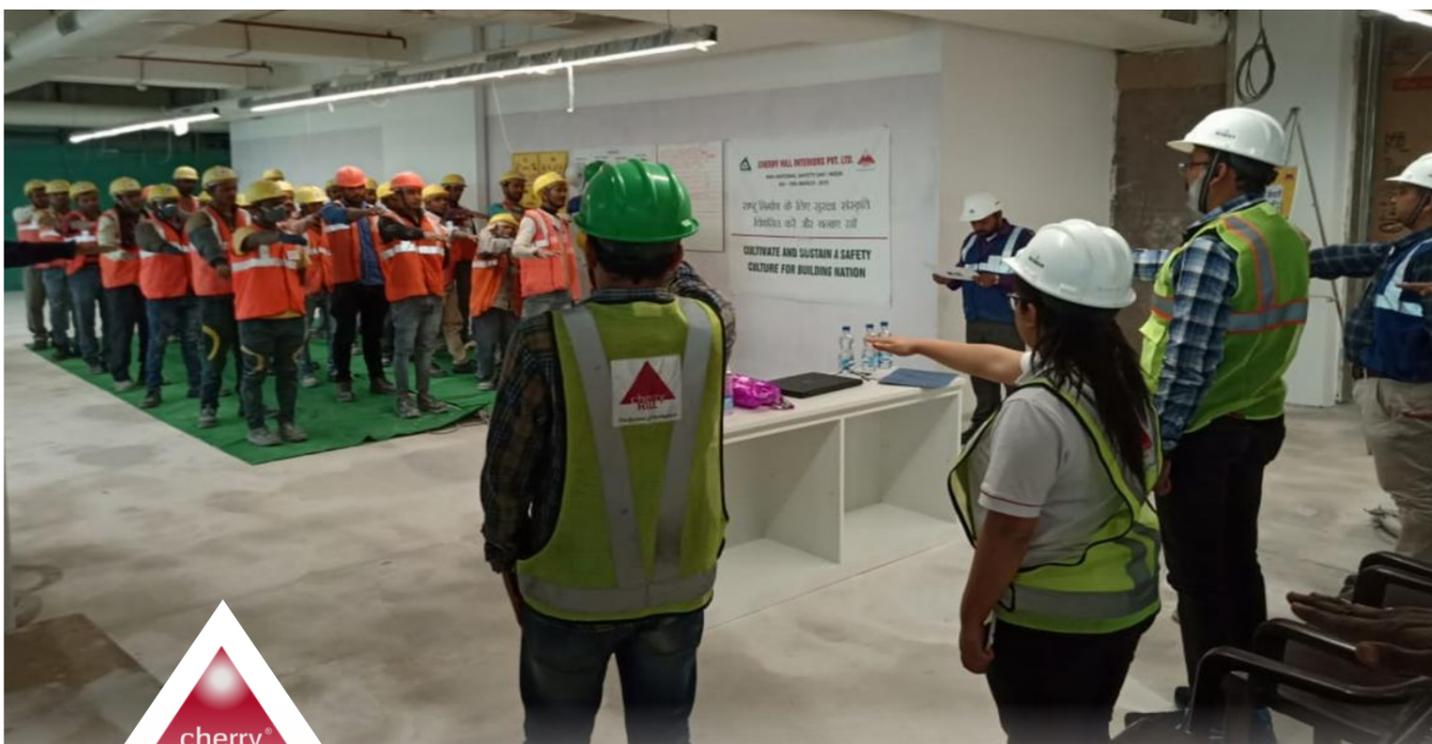

- Prevent or mitigate both human and economic losses arising from accidents, adverse occupational exposures, and environmental events.
- Build EHS considerations into all phases of the operations, including laboratory discovery and development environments.
- Achieve and maintain compliance with laws and regulations.

“Cherry Hill is known in the industry to follow world-class & best industry practices, with Zero Compromise on EHS”. We personally overlooks the various activities and drills that are

regularly conducted on all of the Cherry Hill's sites to ensure that each session spent with the workforce is delivered in the best possible manner which yields the maximum output. We hosted many of such training sessions all across the country – be it a session that educates the workers on tool box talks, workplace safety & personal hygiene, or a session that trains them for medical emergencies or adverse situations and how to deal with them.

Now days we see EHS management as being increasingly important strategically to companies' bottom lines, we believe the next generation of EHS management will integrate tightly with other areas of the business.

Additionally, as the promise of the Internet of Things (IoT), Big Data, mobile capabilities, and tech wearables begin to provide increasing amounts of actionable and predictive analytics, the linkage these overall business systems such as Business Intelligence (BI), Enterprise Manufacturing Intelligence (EMI), Enterprise Quality Management Software (EQMS), and Manufacturing Operations Management (MOM) will become increasingly apparent.

Safety pledges & training sessions hosted at Cherry Hill worksites aimed at educating the workers on workplace safety, personal hygiene & medical emergencies.

PRODUCT SHOWCASE | CONTEMPORARY OFFICE FURNITURE BY CHERRY HILL INTERIORS

These designer chairs come with or without armrests, upholstered and available in 6 different colours. The base comes with 4 legs made out of natural or black lacquered oak veneer; suitable for all kinds of floor types.

Kastel Kondor's line of comfortable seating with modular or joinable seating units is perfect for waiting and reception areas. It gives a sense of sophistication with its side table attachment where you can showcase coffee table booklets and magazines.

The new colour palette for the Drop chair emerges from combining a pure, Nordic sensibility with the fun of playing with multiple colours in one room. Design lovers can mix the entire Drop palette around the dining table, just as they can decorate the hall with just a single Drop chair. The shell is made of plastic and available in four colours. The Drop chair is also available fully upholstered in a wide range of fabrics and leather types.

Grand Prix™ is carved to perfection using pressure moulded sliced veneer. Front upholstered or fully upholstered, the chair is available in a wide range of fabrics to suit your needs.

The Diamond EVO modular meeting table is the protagonist of long brainstorming sessions and meetings between high-level executives. The unique structure with triangular profile of Diamond EVO shows finishes brilliantly glamorous.

SINETICA - DIAMOND EVO

YOUTH SHOWCASE | 4 ESSENTIALS FOR DESIGNING A NEW CO-WORKING SPACE

Create an ambience that is bold, lively, and colourful. It sparks creativity & helps come up with innovative ideas!

Keep an adequate provision for sunlight. It boosts productivity and also amplifies the beauty of the workspace.

Going green is the new normal. It not only brightens up the workspace, it also creates a positive environmental impact!

Make sure there is enough room for privacy. It is vital that co-workers are able to work in isolation when required.
