## QUOTE OF THE MONTH

*Do not wait; the time will never be 'just right.' Start where you stand, and work with whatever tools you may have at your command, and better tools will be found as you go along* — George Herbert

### OFFICE HUMOUR

"From now on, all job applicants must perform a musical number. We have too many tone-deaf people singing along with the radio!"

The future of workplace

## WESTERN UNION

**The Client:**  
Western union is an American financial services and communications company, headquartered in Englewood, Colorado, USA with regional offices in all major countries.

**The Project Brief:**  
Western Union is a high-end corporate office in Pune, Maharashtra and Knight Frank which had been awarded the Design and Build contract for the same.

**Knight Frank Differentiator:**  
Knight Frank had completed the project in the time as scheduled, It was challenging to complete the tight timeline project with a high spec design demanding high level of precision and quality maintenance.

Western Union engaged Knight Frank to build a state of art technology centre in Pune to work on robotics, machine learning, predictive learning and biometrics. The new centre, approx..100,000 square feet, employs around 1000 skilled people to serve as the remittance payment company's innovation and engineering hub in the region.

Hikmet Ersek, President and CEO of Western Union, inaugurated "WUTEC (Western Union Technology Engineering Centre) India and announced it as "One of the best offices Western Union has globally". The theme on which Knight Frank did Partnering with DWP Interics for design and Cherry Hill as GC for delivering one of the state of art facility became all the more relevant when the client appeased us with those generous words.

*"Design is not making beauty, beauty emerges from selection, affinities, integration, love."*

-Louis Kahn
