PRODUCT SHOWCASE

BUZZI SPACE – SPECTACULAR LIGHTING PRODUCTS FOR YOUR OFFICE

BUZZI HAT

This upholstered pendant light offers excellent sound absorption capabilities. The soft edges and round shapes help to diffuse sound even better. Play around with different sizes and heights to create a better acoustic experience either in offices, lobbies, restaurants or other spaces that need absorption treatment

BUZZI BELL

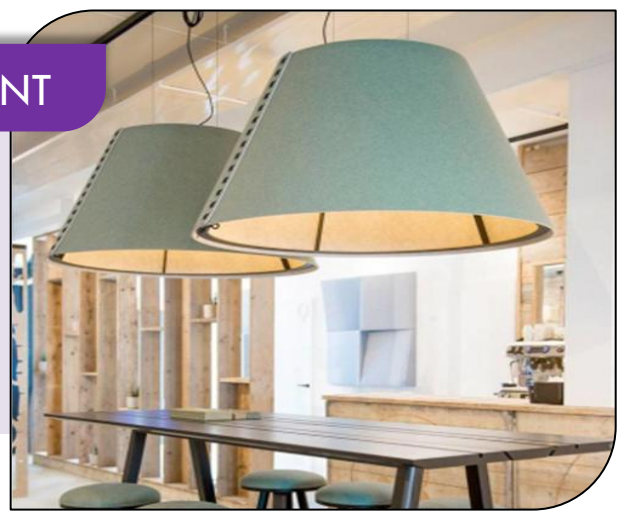
Buzzi Bell makes a statement in offices, restaurants, hotels, institutions, residences and more. The harmonious curve of its bell-shape adds softness to a room with the textural look of felt and a delicate, defused light source or high performance LED engine. The curved shape has an increased performance on capturing sound waves in the room.

MOON

One of the first acoustical lighting solutions that perform equally on lighting as well as acoustic level. Buzzi Moon's LED module provides diffused down light with an output of 2500 Lumen at a temperature of 3000K. The soft edges diffuse sounds while the structural body, made from absorbing materials, delivers excellent acoustic performance.

SHADE PENDANT

This pendant lamp reduces external noise levels to a minimum. Thanks to the big surface it covers and its concave shape, it traps sound waves as they travel upwards. By placing this outstanding acoustic lighting element above the sound source, such as lounges or workstations, it absorbs a large amount of sound, creating a well-balanced sound experience.



PROP LED

The aerodynamic design offers sound-absorbing capabilities, delivering acoustic comfort paired with a warm ambient light. Buzzi Prop LED is specifically designed to absorb high-frequency sounds such as ringtones and chatty colleagues. The LED module provides diffused down light with an output of 1500 Lumen at a temperature of 3000K. Buzzi Prop LED can act as both an ambient and functional lighting fixture.

FEATURED STORY

ELEVATING YOUR **EMPLOYEES' WORKPLACE EXPERIENCES**

Creating a great employee experience requires a deep understanding of what people need and how the workplace can best support them. People are seeking workplaces that reflect their changing needs & now, the expectations are much higher.

With the intensity of work today, leaders are expecting more and more from their people. To produce and create at a consistently high level, consider people's sustained wellbeing which requires:

- Ergonomic support and comfort
- Elimination of distractions so people can focus and collaborate uninterrupted
- Inspiration and rejuvenation— make sure people feel better when they leave than when they arrived at work

When it comes to place, people need an ecosystem of spaces to support all modes of work: focus, collaboration, learning, socialization and rejuvenation. In addition, they need:

- Support for a diverse range of postures and privacy options
- Spaces that give remote colleagues a great experience so they can feel and act as if they are present in the room
- Spaces that help co-located team members remain present and focused

When people have a bad day with technology, they have a bad day at work. They need a range of devices and spaces to share information. They also want easy to use technology that's smart and connected so their ideas can travel seamlessly with them. Considerations include:

- Gathering data so organizations can understand the spaces that best support their people and refine their workplace accordingly
- Giving people access to data so they can find colleagues and rooms quickly
- Providing spaces designed so the place helps the technology be used more effectively and the technology enhances the place

By creating a workplace that brings together people, place and technology, organizations can give people choice and control over where and how they work— something that correlates directly with high workplace engagement and satisfaction. By putting people at the core of everything, the open plan doesn't have to be a source of frustration. It can be a tool to help people and teams thrive.

TGH offers Integrated Facilities Management Service, from property consultancy to day-to-day operations, through our dedicated experts since 1998. Every project benefits nearly two decades of expertise, distinctive management approach and our consideration of the broader property implications for our clients. With us taking care of your facilities management needs, your company can focus on its core business. We achieve results with our high calibre technical staff, established and robust systems and procedures.

Across all of the sectors and services we provide, our projects share a single potent quality: our unwavering dedication to finding a better way. Everything we do challenges, innovates and strives for a solution that achieves our clients' goals more efficiently, more affordably, and more effectively.

OFFICE TIPS

EIGHT WAYS YOU CAN HELP MAINTAIN YOUR ORG'S **INFO SECURITY POSTURE**

If you use your personal phone for work, Make sure it has an active security framework! Mobile theft can lead to loss of sensitive work information!

There are many third-party apps which can access data and files from your phone. Refrain from installing junk apps in your work phone.

Using personal emails to share work relation information can lead to data vulnerability. Ensure that you use only authorized email clients for work.

Do not use public clouds to store official files & data. They may not be adhering to strong security standards as compared to private cloud networks.

Be aware of phishing & cyber theft practices. Be wary of fake emails & report incidents to your IT team! Hackers rely on casual mistakes to exploit corporate vulnerabilities !

Do not leave printouts & files on your desk/ meeting rooms, they may contain sensitive info. Keep confidential reports and files in secure cabinets.

Refrain from using public Wi-Fi for work. The info you exchange may be accessed & misused. Carry your own portable Wi-Fi device if you are working on the go.

Do not post any work related info on social media accounts. Be responsible and contribute in maintaining your organization's security posture.

This month in history
