PROJECT OF THE MONTH

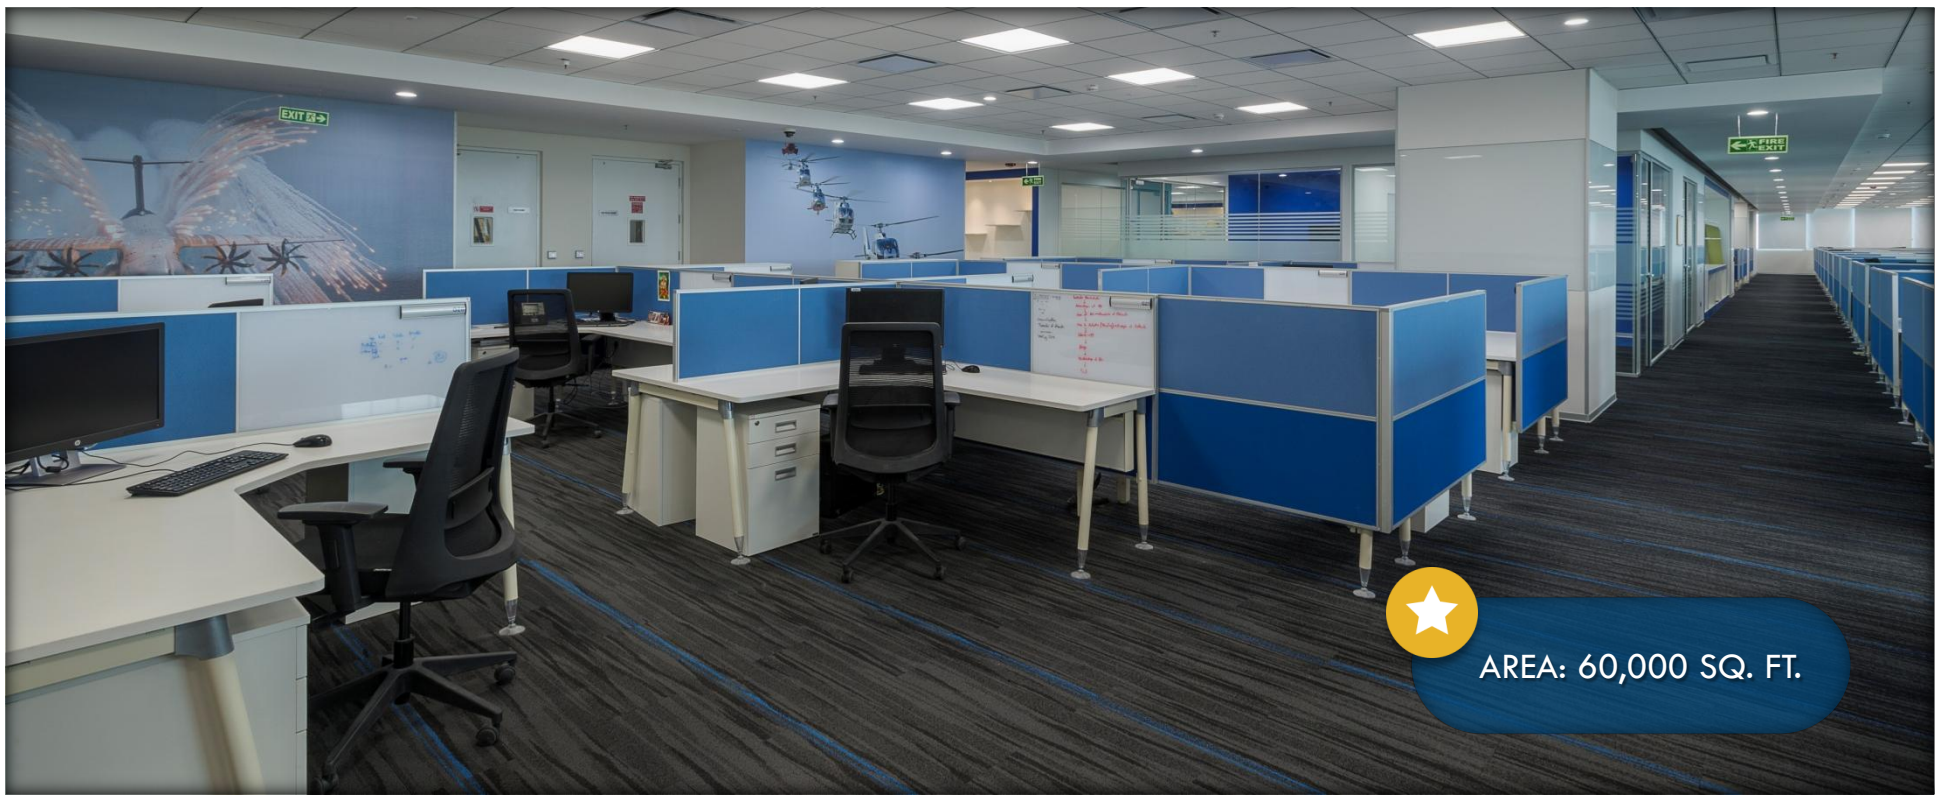
THE **AIRBUS** OFFICE – EXECUTED BY CHERRY HILL INTERIORS

Airbus is an international MNC and a leader in Aerospace Sector designing, manufacturing & delivering industry-leading commercial aircrafts, military transports, helicopters, satellites and launch vehicles, as well as providing data services, secure communications, navigation, urban mobility and other solutions for customers on a global scale.

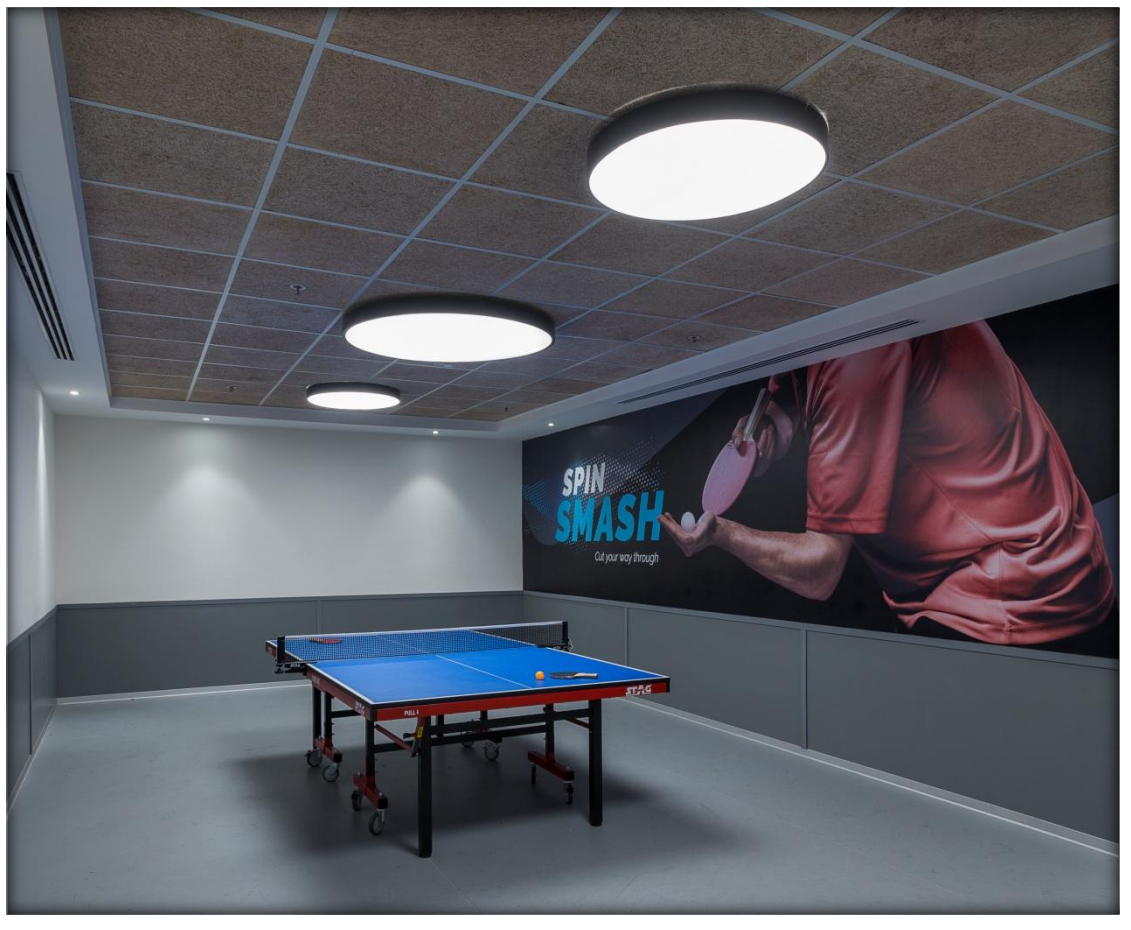
The Indian office was conceived to give an identity depicting the company business which was displayed via use of 3-D graphics covering Aircrafts. In terms of the overall look-and-feel, the office was given an earthy and comfortable environment which connects to nature. Their work station area was done in a way to attract maximum sunlight which binds the gap between indoor and outdoor environment

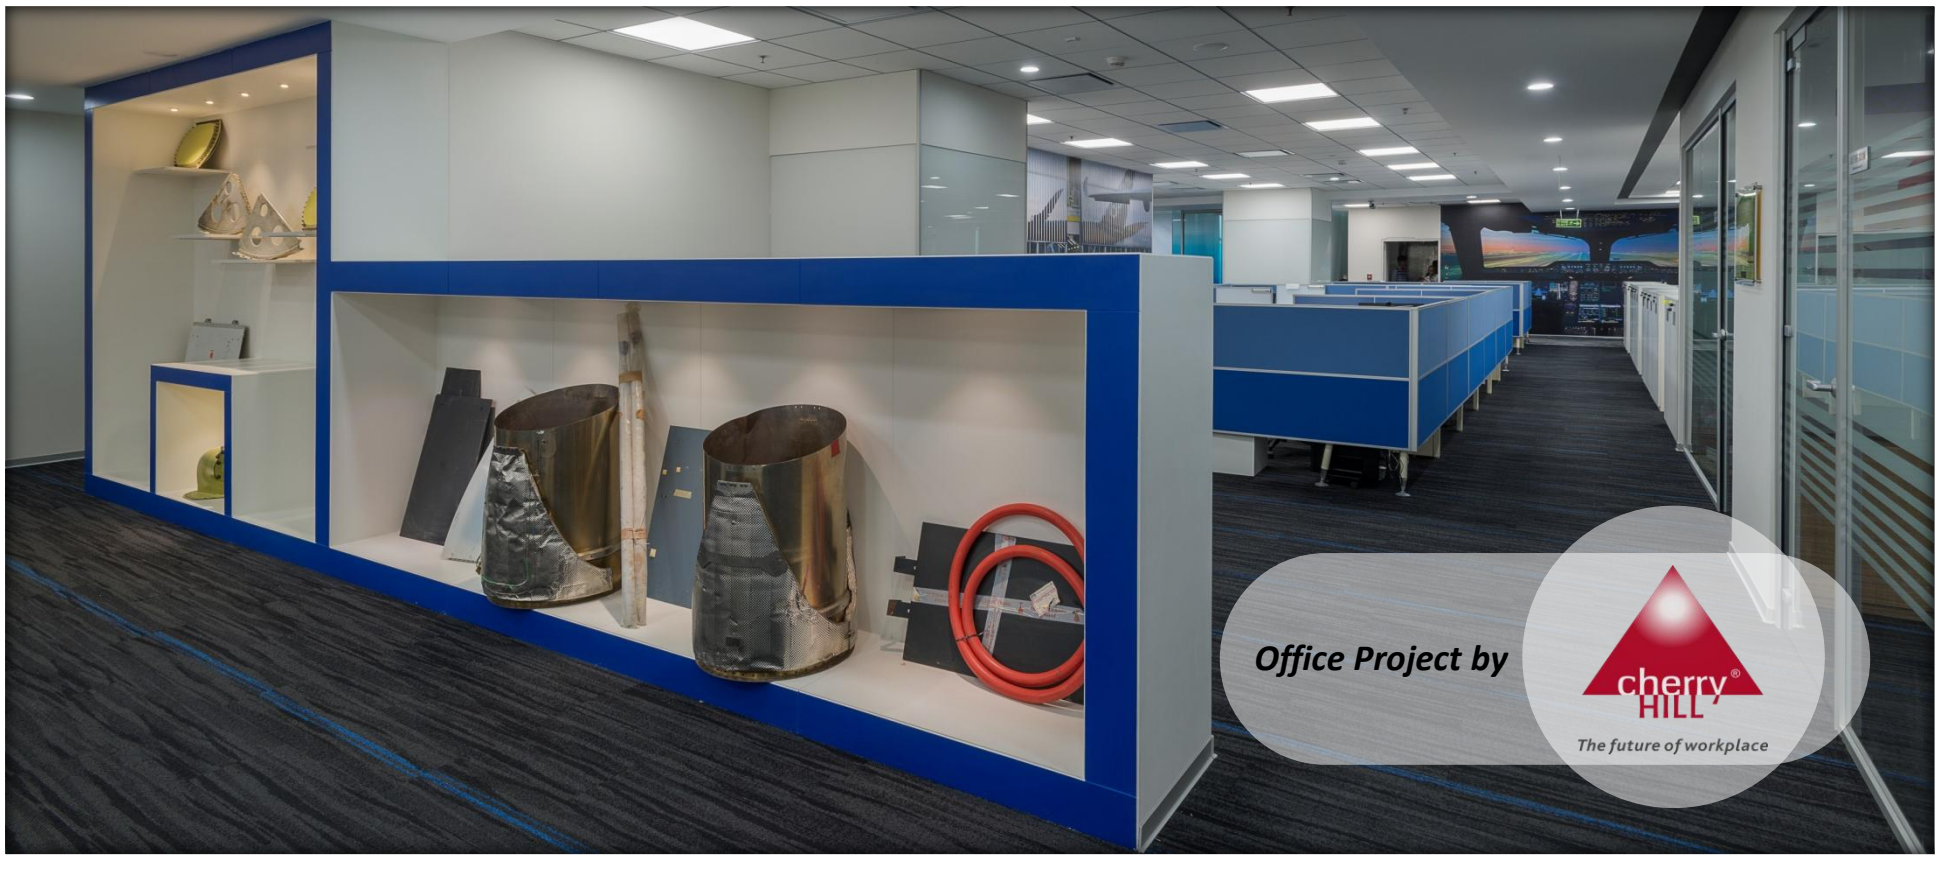
The motto was to keep the space collaborative to ensure continuous interaction between teams, group and management.



KEY FEATURES

1. Collaborative/Socializing spaces
2. Interacting spaces for employees
3. Easy circulation around the office area
4. Abundance of natural light
5. Flexible space planning
6. Modular grid ceiling in workstation & meeting rooms
7. Gypsum ceiling in passages, recreation areas & cafeteria
8. GFX cement flooring in reception, cafeteria and main passages





SPECIAL FEATURE

CHERRY HILL INNOVATION LABS: NURTURING NEXT-GEN IDEAS FROM THE GEN-NEXT | A NATIONAL CSR INITIATIVE BY CHERRY HILL INTERIORS

Cherry Hill Innovation Labs (CHIL) by Cherry Hill Interiors Pvt. Ltd. is a way of opening its doors to the untouched and unexplored talent within the student fraternity Pan-India. It acknowledges the crucial role of employers in taking responsibility for their talent by engaging with schools and colleges, as well as reaching out to students to highlight various career opportunities.

CHIL has been introduced as an initiative to identify and highlight the potential in students pursuing the field of Technology, Architecture, Design, and more.

The Season 1 edition of Cherry Hill Innovation Labs was an immediate success with over 100+ entries received from over 200 students participating from various campuses. The contest highlights the following themes: Product Design & Interior Design.

In the second season of Cherry Hill Innovation Labs, we challenged students across India to demonstrate how they think humanity can collaborate with the powerful AI (artificial intelligence) technology to tackle the challenges in the Construction & Interior industry. The contest was aimed to spark creative, innovative, and fearless demonstrations of the AI technology that are truly scalable and solve crucial engineering challenges and accelerate the adoption of AI technologies in Interiors & Construction Industry. Some of these include the use of Safety Sensors to enhance safety measures at construction sites; drones to ensure efficient and quick site verification and check work quality; autonomous/ unmanned Vehicles to ease transportation at job sites; robots to carry out jobs leading to costs saving/process improvements; man-less processes (automated reception desk at workplaces, etc.); AI fabrications in products; AI products for site verification; building AI tools oriented design for offices; new product technologies, etc.

The second edition of CHIL saw a bigger participation, and some really interesting concepts were submitted by students.

Here's a glimpse of the winners and the award distribution by Mr. Gaurav Kashyap, C.E.O. of Cherry Hill Interiors.

CHIL SEASON 1

Interior Designing | Product Designing

Winners - Popular Choice

Amity University — Sushant School of Arch.

Winner - Critics Choice

Amity University — IMS Design Academy

Runners Up – Critics Choice

Sharda University — Sharda University

CHIL SEASON 2

Artificial Intelligence Innovation Challenge

Winners

Sharda University – AI Cleaning Robot

First Runners Up

Sharda University – AI Spy Robot

Second Runners Up

MGIT Hyderabad – AI Beetle Guard Drone

PRODUCT SHOWCASE

OTIC VETRO : ACOUSTIC OFFICE PARTITION SYSTEMS

GLASS/ SOLID PARTITION SYSTEM

ACOUSTIC BOOTH

Regardless dimensions, InBox modules always feature the best comfort and plus you may need, even caring for circumstances which may seem uncommon. Wiring, switches, and other utilities do not need any extra service module, as they are embedded within the solid panels. Space is always optimized without compromising design & functionality.

GLASS/ SOLID PARTITION SYSTEM

INBOX

InBox is a defined system, suitable for preserving acoustic privacy. It provides a wide range of material and dimension combinations , acknowledging it as the best choice to create meeting rooms, offices, internet or calpoints or just quiet relax areas. The self-standing frame enables a quick & undemanding placement of the modules, while the many materials, colors & finishing merge in into any location.

1752 ***Benjamin Franklin shows that lightning is electricity***

1775 ***The United States Army is first established***

1819 ***The bicycle is invented***

1877 ***The first telephone service is installed***

1901 ***First exhibition of Pablo Picasso's art opens***

1903 ***The Ford Motor Company incorporates***

1934 ***Donald Duck makes his first ever appearance***

1967 ***The first ever ATM is installed in London, England***

QUOTE OF THE MONTH

There is only one boss. **The Customer.** And he can fire everybody in the company from the chairman on down, simply by spending his money somewhere else!

~ Sam Walton
Founder, Walmart

DID YOU KNOW?

You burn more calories eating celery than it contains.

The more you eat the Thinner you become!
