COVID-19

Prevention Tips

Novel Coronavirus

COVID-19 transmission and protective measures

COVID-19 spreads primarily from person to person. Fighting this disease is our joint responsibility.

Protect yourself and others by making these 6 simple precautions your new habits:

Clean your hands often

Cough or sneeze in your bent elbow - not your hands!

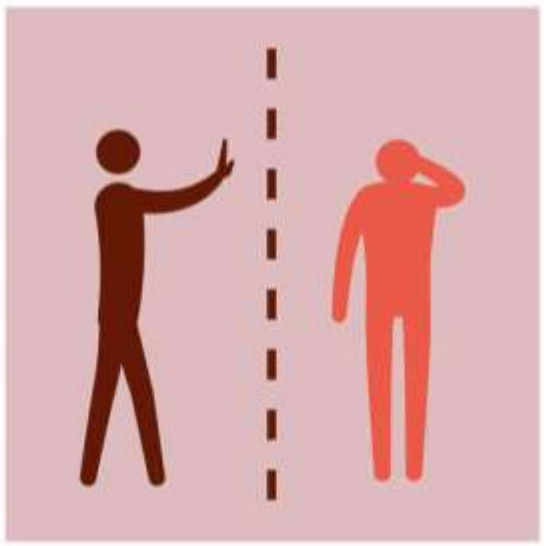
Avoid touching your eyes, nose and mouth

Limit social gatherings and time spent in crowded places

Avoid close contact with someone who is sick

Clean and disinfect frequently touched objects and surfaces

Wash hands often with soap and water



Stay at least 6 feet away from others

Don't touch eyes, nose or mouth with unwashed hands

Wear a cloth face covering when you have to leave your home

Avoid crowded places and social gatherings

If you become sick call your health care provider

DID YOU KNOW?

HEALTH-TIPS: Pineapple Helps in treating cold and cough

Pineapple juice is 500% more effective at helping you to stop coughing than cough syrup is. Fresh pineapples contain a substance known as Bromelain. A specific type of enzyme that has anti-inflammatory characteristics which can combat infections and eradicate bacteria.

QUOTE OF THE MONTH

The real test is not whether you avoid this failure, because you won't. It's whether you let it harden or shame you into inaction, or whether you learn from it; whether you **choose to persevere**.

~ Barack Obama
