PROJECT SHOWCASE | Locuz (Hyderabad) – Design & Build EXECUTED BY CHERRY HILL INTERIORS

Locuz is a Security led digital transformation company with its Innovation & Engineering headquarters in Hyderabad, India.

Our lineage has been building some of the largest and most complex systems across the globe which were not just technology projects but touched people. Be it setting up complete infrastructure for the Moon Mission or building a Tsunami warning system or be it one of the largest Axle Manufacturers and their 800+ workloads moved to the cloud, We have dealt with business problems of different scales. Cyber Security has been a big part of solving these problems and hence it became part of our DNA and is fundamental to all our solutions.

We believe that a modern organization needs to leverage the new toolbox which constitutes Automation, AI, ML, Analytics, Data, Cloud, & DevOps. Security is fundamental to all of those tools & is the underpinning of every solution.

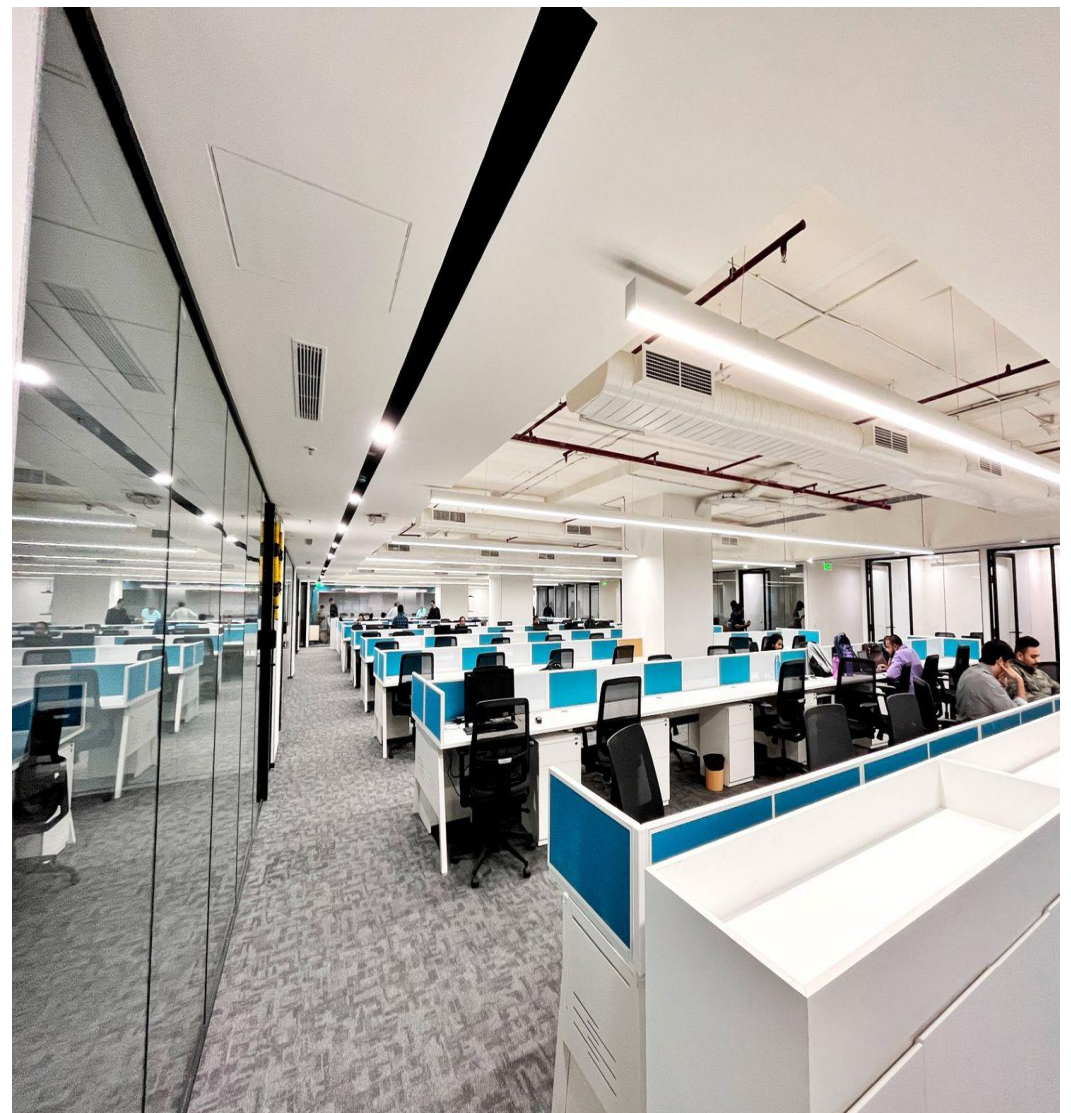

The project of 25,000 sq. ft. comprised of 45 Days. An office of International Standards according to the necessities of the client was delivered within the given time span.

The working zones are arranged in such a manner that there is efficiency and a sense of comfort at the same time. The break out zones or the collaboration zones are designed such that they are an oasis of greens and a person is at ease.

It's simple but sophisticated style boasts of vibrancy and colors. The office gives a fresh contemporary look furthered by the use of bright colors throughout the space.

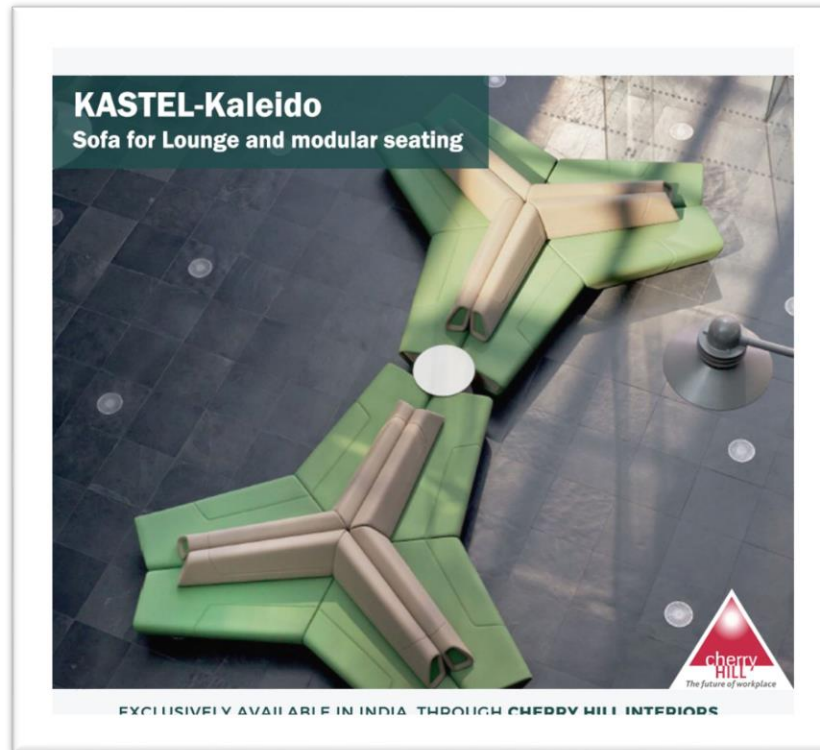

The interior space clearly reflects the company's values – it is simple, creative and democratic, inspiring its employees to move ahead in life.
