## PROJECT SHOWCASE | Chegg (Vishakhapatnam) – Design & Build EXECUTED BY CHERRY HILL INTERIORS

Designed by Geo Designs with an intent to create an impact on occupants' everyday lives, the open spatial units at Chegg's Vishakhapatnam office represent autonomy in functions, interactions and movement for an integrated workplace experience that is connected and synergetic.

The entry point replicates a round island strongly demarcating the space whilst softly dividing the waiting and reception area through a powder coated metal screen.

With enticing formal and informal zones, the Chegg office encourages free flowing movement from one space to another, with visual highlights sweeping into the meeting rooms through use of accent colors and geometric patterns. Heightened consideration given to acoustics facilitate focus areas for concentration and maximum efficiency.

throughout the office interiors for a conducive educational environment, true to the firm's brand identity and cultural values.

Wired collaborative spaces, stackable furniture, exposed ceilings, height adjustable workstations and sliding partitions further allow for closer work relationships and transparency in this creative and energetic space.

It's simple but sophisticated style boasts of vibrancy and colors. The office gives a fresh contemporary look furthered by the use of bright colors throughout the space.

The interior space clearly reflects the company's values – it is simple, creative and democratic, inspiring its employees to move ahead in life.
