PROJECT SHOWCASE | I Global Technology Company (Gurugram) – General Contracting EXECUTED BY CHERRY HILL INTERIORS

A Workplace Designed for Connection, Collaboration and Innovation

For a leading global technology company, Cherry Hill Interiors delivered the complete General Contracting scope for a 1,00,000 sq. ft. corporate workplace—translating a contemporary design vision into a high-performance environment built for collaboration, flexibility, and employee well-being.

The completed workplace demonstrates how thoughtful design can be brought to life through disciplined execution. From the distinctive circular ceiling features and vibrant yellow accents to the refined meeting rooms, collaborative lounges, focus booths, and open workstations, every element was executed to create a cohesive and engaging workplace experience.

As the General Contractor, Cherry Hill Interiors managed the execution of the project across multiple workstreams, ensuring seamless coordination between design intent, site requirements, services, finishes, furniture, and stakeholder expectations. The result is a workplace where aesthetics and functionality come together without compromising quality, safety, or performance.

The open work areas were carefully executed to support efficient team collaboration, while meeting rooms and enclosed spaces provide privacy and focused interaction. Employee-centric zones, informal seating areas, and thoughtfully integrated breakout spaces add flexibility to the overall workplace strategy. Attention to detailing is evident across the project, from feature lighting and acoustic elements to custom-built spaces and coordinated finishes.

Delivering a project of this scale requires more than construction—it demands proactive planning, technical expertise, quality control, and close stakeholder management. Cherry Hill Interiors maintained rigorous execution standards throughout the project, supporting timely progress and a smooth transition from construction to final handover.

This project reflects Cherry Hill Interiors' capability to execute complex, large-scale corporate workplaces with precision, ensuring that the final environment stays true to the design vision while meeting the functional and operational needs of a global organization.

The future of workplace

The Buzzi Planter’s high-density foam core and breathable fabric covering will help to soak up sound energy emitted from HVAC, speech, and high-pitch sounds such as ringtones and coffee machines.

Buzzi Nest Booth and Pod are great alternatives to expensive infrastructure and all you need to erase disruptive noise from any workplace. Buzzi Nest works well to absorb and attenuate Mid, Low, and High frequencies and can reduce a conversation to an indistinguishable whisper.

HEALTH-CHECK: HEALTH BENEFITS OF BUTTERMILK

- **Aids Digestion:** Buttermilk is rich in probiotics that support healthy digestion, improve gut health, and help reduce bloating.
- **Supports Bone Health:** Packed with calcium and phosphorus, buttermilk helps strengthen bones and teeth and supports overall bone health.
- **Keeps You Hydrated:** With its high water content and essential electrolytes, buttermilk helps maintain hydration, especially during hot weather.
- **Boosts Immunity:** Rich in protein, vitamins, and beneficial bacteria, buttermilk supports immunity and promotes overall well-being.
